

Ring Size Guide

Print this guide on standard A4 and scaled to 100%. To check the accuracy of your printout, position a credit card under the line below. The scale is correct if the credit card and line length match.

Match your ring

Use an existing ring that fits you well. Match the inside of the ring with one of the circles below. For your right size, you should only see the grey filled circle within your ring. Likewise, none of the grey circle should be outside of your ring band. If your ring sits between two sizes, we recommend choosing the larger size.
